

PRODUCT DESCRIPTION

Efficiently removes plastic remains and burnt-on residues from injection moulds. The formulation uses almost no conventional solvents and effortlessly dissolves residues of release agents, anticorrosives and lubricants.

ADVANTAGES

- » Efficient foam with long reaction time
- » Can be used on temperature-regulated moulds
- » Also dissolves PVC and POM deposits
- » User-friendly and biodegradable

APPLICATION

Do not use on aluminium (risk of corrosion). Shake can well before using. Spray the parts to be cleaned from a distance of approx. 20 cm and allow to take effect. After a brief exposure time, remove the dissolved residues mechanically and, if necessary, clean with VCF 10.
